What is the “Worlds Greatest Hobby?” Some would say model railroading. (Visit www.greatesthobby.com) See what you think.

A new model railroad club for boys and girls 8-18 has been formed by local members of the National Model Railroad Association. (Visit NMRA.org) Meetings are held on the second Saturday of the month at the North Domingo Baca Center. Because this is a “hands on” activity, the club size will be limited to about 15 boys and girls. You will be included in the club on a “first come-first served” basis.

Learn how to work with woodworking tools, build a model railroad layout, study the basics of electricity, participate in “make and take” projects, complete scenery projects, visit local model railroad layouts, see and participate in demonstrations and clinics on modeling as well as set up your layout at National Train Day in May 2015 downtown Albuquerque at the Alvarado Center.

To receive an information packet of about 5 attachments about the Rio Grande Model Railroad Club contact Al Hovey at alhovey@comcast.net. Mark your request as follows:
